

AMENDMENT NO. 1

to the

INTERCONNECTION AGREEMENT

between

Brandenburg Telecom, LLC

and

KENTUCKY ALLTEL, INC. as successor to VERIZON SOUTH, INC. (GTE OF THE SOUTH, INC.)

This Amendment No. 1 (the "Amendment") is made this 27th day of May 2005 (the "Amendment Effective Date"), by and between Brandenburg Telecom, LLC. ("CLEC"), a Commonwealth of Kentucky limited liability company with its principal place of business at 200 Telco Drive, Brandenburg, Kentucky and Kentucky ALLTEL Inc., a Delaware corporation ("Alltel") with its principal place of business at One Allied Drive, Little Rock, AR 72202. (CLEC and Alltel may be hereinafter referred to, each individually, as a "Party" and, collectively, as the "Parties"). This Amendment covers services in the Commonwealth of Kentucky.

WITNESSETH:

WHEREAS, CLEC and Alltel (as successor to Verizon South, Inc./GTE of the South, Inc.) are Parties to an interconnection agreement under Sections 251 and 252 of the Telecommunications Act of 1996, dated December 17, 2001 (the "Interconnection Agreement"); and

WHEREAS, on February 4, 2005, the FCC released an Order on Remand in WC Docket No. 04-313 and CC Docket No. 01-338 (the "TRRO") setting forth rules that supplanted, effective March 11, 2005, the temporary rules set forth by an FCC Order on August 20, 2004 in the above referenced dockets; and

WHEREAS, in light of these developments, the Parties, pursuant to Section 252(a) of the Communications Act of 1934, as amended, (the "Act") and Section 4 of the Interconnection Agreement, wish to amend the Interconnection Agreement in order to give contractual effect to the provisions set forth herein.

NOW, THEREFORE, in consideration of the mutual promises, provisions and covenants herein contained, the sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. Amendment to the Agreement.

Unbundled Network Element Attachment is amended to include the following provisions:

- 3.7.1 DS1 Loop Caps. Alltel is not obligated to provide CLEC more than ten (10) DS1 unbundled loops to any single building (the "DS1 Cap"). CLEC will cease ordering DS1 unbundled loops with respect to a building once CLEC has already obtained ten (10) DS1 unbundled loops at the same building. If, notwithstanding this Section, CLEC submits such an order, at Alltel's option it may accept the order and fulfill a request for DS1 unbundled loop(s) in excess of the DS1 Cap as a Special Access circuit in accordance with Alltel's Intrastate Special Access tariff and applicable Special Access charges will apply to CLEC for such DS1 loop(s) as of the date of provisioning.
- 3.7.2 Alltel will provide written notice to CLEC in the event CLEC has more than ten (10) DS1 unbundled loops to any single building as of the effective date of this amendment.

Within thirty (30) calendar days following the date of such notice, CLEC will submit requests to disconnect or convert the unbundled loops exceeding the DS1 Cap to Special Access circuits. All unbundled loops converted to Special Access will be billed applicable Special Access charges as listed in and be subject to the provisions of the Alltel Intrastate Special Access tariff.

- 3.11.1 DS3 Loop Caps. Alltel is not obligated to provide CLEC more than one (1) DS3 unbundled loop to any single building (the "DS3 Cap"). CLEC will cease ordering DS3 unbundled loops with respect to a building once CLEC has obtained one (1) DS3 unbundled loop at the same building. If, notwithstanding this Section, CLEC submits such an order, at Alltel's option, it may accept the order, but fulfill the requested DS3 unbundled loop(s) in excess of the DS3 Cap as a Special Access circuit in accordance with Alltel's Intrastate Special Access tariff and applicable Special Access charges and the provisions of the applicable tariff will apply to CLEC for such DS3 loop(s) as of the date of provisioning.
- 3.11.2 Alltel will provide written notice to CLEC in the event CLEC has more than one (1) DS3 unbundled loop to any single building as of the effective date of this Amendment. Within thirty (30) calendar days following the date of such notice, CLEC will submit requests to disconnect or convert to Special Access the unbundled loops exceeding the DS3 Cap. All unbundled loops converted to Special Access will be billed applicable Special Access charges and be subject to the provisions of the Alltel Intrastate Special Access tariff.
- 11.1 Alltel shall provide CLEC with access to UNE DS1 Dedicated Transport on routes, except routes where both wire centers defining the route are Tier 1 Wire Centers. As such Alltel must provide UNE DS1 Dedicated Transport under this Amendment only if a wire center at either end of a requested route is not a Tier 1 Wire Center, or if neither is a Tier 1 Wire Center. DS1 Dedicated Transport circuits on routes between Tier 1 Wire Centers are no longer available as UNEs under this Amendment. Accordingly, CLEC may not order or otherwise obtain, and CLEC will cease ordering DS1 UNE Dedicated Transport on such route(s).
- 11.2 Alltel shall provide CLEC with access to UNE DS3 Dedicated Transport, except on routes where both wire centers defining the route are either Tier 1 or Tier 2 Wire Centers. As such Alltel must provide UNE DS3 Dedicated Transport under this Amendment only if a wire center on either end of the requested route is a Tier 3 Wire Center. If both wire centers defining a requested route are either Tier 1 or Tier 2 Wire Centers, then DS3 Dedicated Transport circuits on such routes are no longer available as UNEs under this Amendment. Accordingly, CLEC may not order or otherwise obtain, and CLEC will cease ordering DS3 UNE Dedicated Transport on such route(s).

Unbundled Network Elements Attachment is amended to repeal and replace the following provision:

- 3.0 Subject to the conditions set forth in Section 1, Alltel shall allow CLEC access to Loops in accordance with, but only to extent required by, Applicable Law. The available Loop types are as set forth below.

- 5.0 Line Splitting

CLECs may provide integrated voice and data services over the same Loop by engaging in "line splitting" as set forth in paragraph 18 of the FCC's Line Sharing Reconsideration Order (CC Docket Nos. 98-147, 96-98), released January 19, 2001. Any line splitting between two CLECs shall be accomplished by prior negotiated arrangement between those CLECs. To achieve a line splitting capability, CLECs may utilize existing supporting OSS to order and combine in a line splitting configuration an unbundled xDSL capable Loop terminated to a collocated splitter and DSLAM equipment provided

by a participating CLEC, collocator-to-collocator connections, and available cross-connects, under the terms and conditions set forth in their Interconnection Agreement(s). The participating CLECs shall provide any splitters used in a line splitting configuration.

8.1 Access to unbundled Dark Fiber will be provided by Alltel, where existing facilities are available at the requested availability date, in the loop, sub-loop and dedicated transport portions of the Company's network. Access to Dark Fiber will be provided in accordance with, but only to the extent required by, Applicable Law. Except as otherwise required by Applicable Law, the following terms and conditions apply to Alltel's Dark Fiber offering.

8.3 Wire Center "Tiers" -- wire centers are classified into three "tiers," as follows:

(i) Tier 1 Wire Centers are those Alltel wire centers that contain at least four fiber-based collocators, at least 38,000 business lines, or both. Tier 1 Wire Centers also are those Alltel tandem switching locations that have no line-side switching facilities, but nevertheless serve as a point of traffic aggregation accessible by CLEC. Once a wire center is determined to be a Tier 1 Wire Center, that wire center is not subject to later reclassification as a Tier 2 or Tier 3 Wire Center.

(ii) Tier 2 Wire Centers are those Alltel wire centers that are not Tier 1 Wire Centers, but contain at least 3 fiber-based collocators, at least 24,000 business lines, or both. Once a wire center is determined to be a Tier 2 Wire Center, that Wire Center is not subject to later reclassification as a Tier 3 Wire Center.

(iii) Tier 3 Wire Centers are those Alltel wire centers that do not meet the criteria for Tier 1 or Tier 2 Wire Centers.

8.5 CLEC shall order Dark Fiber Dedicated Transport and Dark Fiber Loop UNEs by sending to Alltel a separate ASR for each A to Z route.

8.6 Direct access to dark fiber loops, sub-loops, or Dedicated transport that terminates in a Alltel premise, must be accomplished via a collocation arrangement in that premise. In circumstances where collocation cannot be accomplished in the premises, the Parties agree to negotiate for possible alternative arrangements.

11.0 Unbundled Dedicated Transport

11.1 Wire Center "Tiers" -- wire centers are classified into three "tiers," as follows:

(i) Tier 1 Wire Centers are those Alltel wire centers that contain at least four fiber-based collocators, at least 38,000 business lines, or both. Tier 1 Wire Centers also are those Alltel tandem switching locations that have no line-side switching facilities, but nevertheless serve as a point of traffic aggregation accessible by CLEC. Once a wire center is determined to be a Tier 1 Wire Center, that wire center is not subject to later reclassification as a Tier 2 or Tier 3 Wire Center.

(ii) Tier 2 Wire Centers are those Alltel wire centers that are not Tier 1 Wire Centers, but contain at least 3 fiber-based collocators, at least 24,000 business lines, or both. Once a wire center is determined to be a Tier 2 Wire Center, that Wire Center is not subject to later reclassification as a Tier 3 Wire Center.

(iv) Tier 3 Wire Centers are those Alltel wire centers that do not meet the criteria for Tier 1 or Tier 2 Wire Centers.

Additional Services Attachment is amended to repeal and replace the following provision:

- 5.2 If a CLEC Customer is served by resold Alltel Telecommunications Service subject to any call blocking feature used by CLEC, to the extent reasonably feasible, Alltel will route Voice Information Services Traffic originating from such Service to the Voice Information Service platform. For such Voice Information Services Traffic, unless CLEC has entered into an arrangement with Alltel to bill and collect Voice Information Services provider charges from CLEC's Customers, CLEC shall pay to Alltel without discount the Voice Information Services provider charges. CLEC shall pay Alltel such charges in full regardless of whether or not it collects such charges from its own Customers.
- 5.5 For variable rated Voice Information Services Traffic (e.g., NXX 550, 540, 976, 970, 940, as applicable) from CLEC Customers served by resold Alltel Telecommunications Services, CLEC shall either (a) pay to Alltel without discount the Voice Information Services provider charges, or (b) enter into an arrangement with Alltel to bill and collect Voice Information Services provider charges from CLEC's Customers.
- 10.1 This Section applies in connection with CLEC Customers served by Telecommunications Services provided by Alltel to CLEC for resale.
- 10.3 Subject to Sections 10.2 and 10.4, if a Customer of either Alltel or CLEC who is served by a Alltel Telecommunications Service ("VTS") changes the LEC that serves the Customer using such VTS (including a change from Alltel to CLEC, from CLEC to Alltel, or from CLEC to a LEC other than Alltel), after such change, the Customer may continue to use with such VTS the telephone numbers that were assigned to the VTS for the use of such Customer by Alltel immediately prior to the change.
- 10.5 If service on a VTS provided by Alltel to CLEC under this Agreement is terminated and the telephone numbers associated with such VTS have not been ported to a CLEC switch, the telephone numbers shall be available for reassignment by Alltel to any person to whom Alltel elects to assign the telephone numbers, including, but not limited to, Alltel, Alltel Customers, CLEC, or Telecommunications Carriers other than Alltel and CLEC.
